Read this to run Construct with the sample dataset provided

1) Copy folder ConstructDemo under C:\. You can get ConstructDemo from the next link.

2) It is essential the path be C:\ConstructDemo as sample files and matrix files are setup accordingly.

3) In C:\ConstructDemo you will find:

   1) Demo Usage guide: Read this to run the sample input
   2) Sample Input Data Set
   3) Sample Output
